

WELCOMING

Laars® Heating Systems
to our Growing Family.

KEEP WATCHING!

LAARS Heating Systems
isn't the first acquisition we've
made to broaden Bradford

White's offering to the plumbing and HVAC industry and it won't be our last. This is just another step in the strategic plan we created for the benefit of both Bradford White and our valued customers.

We have taken steps on a path that is guided by four simple goals - "Grow the company, engineer and innovate, add new products and provide greater value to all our customers." This path of continuous growth and improvement has manifested itself in the acquisition of AERO Environmental, Ltd., Niles Steel Tank and, of course, Laars. It is also evident in the physical expansion throughout our companies and in the development of new and better water heating products for the trade.

For all of you who have supported and believed in us over the years, we thought you should know the latest good news for the wholesale plumbing and heating industry. We invite you to *Keep Watching* and see what else Bradford White Corporation has to show you.
